(Strip company-specific names. Title with the buyer's pain keyword. Example: "Write 10 Etsy listings for handmade jewelry sellers — title + description + 13 tags each...")

4. THE 7-DAY PLAN — checkboxes for each day

- DAY 1** Sign up for ChatGPT Plus (\$20/mo if you don't have it). Open a fresh Gumroad / Fiverr / Upwork account for the pick.
- DAY 2** Build your first prompt or service template. Test against 3 real scenarios from your day job.
- DAY 3** Write the Gumroad listing / Fiverr gig page. Title = buyer's pain keyword. No clever names.
- DAY 4** Post ONE Reddit comment / LinkedIn post / TikTok pointed at the listing. Plain language. No links in step 1.
- DAY 5** Reply to DMs. Edit listing based on the first 2-3 questions you get. Add a screenshot of any feedback.
- DAY 6** Repeat the post in a second community. Different angle, same offer.
- DAY 7** Tally the week — visits, replies, sales, dollars. Decide what to repeat next week.
